

HorizonteNord

Inclusion for disabled persons

Providing an new quality of participation

Using the instruments for inclusion strategies

During the last years, Germany is experiencing a paradigm shift. This new paradigm places the disabled person, with his rights, in the foreground emphasizing person centered and individualized support plans. This change in perception and in serving individuals is covered in the expression Inclusion – a society where disabled persons belong.

Consulting, Counseling and Training

For disabled persons, their parents, institutions, agencies, organizations and teachers

Are you searching for concrete answers, that would make it possible for your organization and social offers to be more successful in this new paradigm outlook, for example through employees workshops and training?

Do you need someone to help you put these new ideas into practice? HorizonteNord, educates and develops with you inclusion strategies.

Personal Budget

Motor for Inclusion

Self determination for disabled persons

All questions concerning the personal budget
